1 Introduction

The generic learning aim codes for use in the ILR Learning aim reference field, field A09, from 2008/09 are contained in this document. Providers should use the most specific code available for the provision delivered. If a specific code does not exist, then a class code from this document should be used.

Each section in this document shows an example class code for each type of provision and the format for creating the codes. A full set of available class codes is included on the Learning Aim Database (LAD).

The term 'approved qualification' refers to learning aims leading to qualifications approved by the Secretary of State under Sections 96 and 97 of the Learning and Skills Act 2000. The term 'other provision' refers to other learning aims that do not lead to such qualifications. The Department for Children Schools and Families (DCSF) and the Department for Innovation, Universities and Skills (DIUS) hold lists of qualifications approved under Sections 96 and 97 respectively.

Note that, as with other information within the Learning Aim Database, the funding information in the LAD and in this Appendix should not be used as the sole means of confirming the eligibility of learning aims for LSC funding. See [LSC Funding Guidance 2008/09 - Principles, Rules and Regulations](#) for more information on which aims are funded and in which circumstances.

1.1 Units

From 2008/09 funding for units delivered to adults will only be available for units of Qualifications and Credit Framework (QCF) accredited provision approved as part of the unit based funding trials. Guidance on available QCF units will be published by the LSC in October 2008. The only exception to these restrictions will be units of Skills for Life provision and NVQ Language Units. Please see paragraphs 267 to 278 of the [LSC Funding Guidance 2008/09 - Principles, Rules and Regulations](#) for more information unit funding.

This policy will affect codes starting: ZUNA / ZUNE / ZCAC / ZEDP / Z9V. Two new codes have been created to support the recording of units in certain circumstances (see below), these codes start: ZUQA and ZUXA. Specific codes for individual units have also been added to the LAD to support the funding of eligible units in the Adult Learner and Employer Responsive models. More information about the codes is set out below.

Learners continuing on affected programmes will be funded to the end date of their programme or until 31 July 2009, whichever is sooner.

1.2 Skills for Life

From 2007/08, at Level 1 and Level 2, the only learning aims eligible for funding as basic skills provision, and funded at the enhanced programme weighting of 1.4 (programme weighting factor F), are the nationally approved Certificates in Adult Literacy, Numeracy and English for Speakers of Other Languages (ESOL) Skills for Life. This does not apply to Skills for Life provision delivered under the Adult Safeguarded Learning (ASL) funding stream where the class codes for basic skills at level 1 and 2 can still be used and are

funded differently to Learner Responsive provision. Refer to paragraph 83 of “A framework for managing the balance and mix of provision (2007/08)” for further information.

2 Summary of Changes

- The unitisation codes for approved units (codes starting with ZUNA) have been withdrawn for new learners, and replaced by two new sets of codes for Units of approved Qualifications and Credit Framework (QCF) qualifications (starting with ZUQA) and Units of approved National Qualifications Framework (NQF) qualifications (starting with ZUXA).
- The exception to the above is the ZUNA codes for Skills for Life provision which remain unchanged.
- The ZUXA codes for units of Approved NQF qualifications are potentially eligible for funding as 16-18 Learner Responsive provision in 2008/09, but are not eligible for Adult Learner Responsive funding.
- The ZUQA codes for units of Approved QCF qualifications have different eligibility for 16-18 and Adult Learner Responsive provision, in line with changes to unit funding policy. These units have been made available for 2008/09 for Adult Learner Responsive provision but there are important changes to eligibility from 1 January 2009. Further details about eligibility for funding in the adult learner responsive model can be found on: <http://qfr.lsc.gov.uk/ukvgrp/support>.
- The eligibility for units as part of the package of support for SMEs in the employer responsive model through Train to Gain can be found on: <http://www.lsc.gov.uk/providers/ttg/latest/>. These units will be identified through unique codes.
- Codes starting with Z9V are no longer eligible for funding as Adult Learner Responsive provision but remain eligible for 16-18 learners.
- Codes starting with ZCAC and ZEDP are no longer eligible for funding. This is because of the policy on unit funding, and also because other codes exist which could be used instead to represent this provision.
- Some codes which related to work-based learning (WBL) provision in 2007/08 have been withdrawn.
- Codes for Pre-entry and Entry Level Skills for Life other provision have been made available for 16-18 learner responsive provision. They should be used only where this provision meets the needs of LLDD learners. Learners without disabilities should be on substantial programmes of approved qualifications.
- Some Long Term Residential Codes have been made available for 2008-09 for 16-18 and Adult Learner Responsive provision.
- A new class code ZSPE0001 – Tailored pre-employment training has been added to the LAD.

3 Overview of codes

This table shows the different class codes available for 2008/09, and shows whether each code is potentially available for:

- provision funded in the 16-18 Learner Responsive (LR) stream of demand-led funding
- provision funded in the Adult Learner Responsive (LR) stream of demand-led funding
- provision funded in the Employer Responsive (ER) stream of demand-led funding
- Adult Safeguarded Learning (ASL) provision.

6.2 Edexcel Conversion Codes

The codes for Edexcel conversion codes are formatted as shown below. These codes use a type identifier, then notional NVQ level, Sector Subject Area tier 1 and programme weighting factor. Please note that only codes with combinations of SSA and PWF specified by EDEXCEL have been created.

Code Structure:

Z Prefix for class code

N/F Type of conversion

N Indicates Edexcel BTEC National Conversion Code **or**

F Indicates Edexcel First Conversion Code

Degree of conversion

1 From award to certificate

2 From certificate to diploma

3 From award to diploma

Notional NVQ level (1-5)

Sector Subject Area, tier 2, using a leading zero when required, for example, 012 for SSA 1.2

Programme Weighting Factor

An example is shown below:

A learner enrolls on the BTEC National Award in Agriculture (aim reference 10018815). After achieving this aim, the learner then decides to try the BTEC National Diploma in Agriculture. Since they have the award, which nests in the diploma, the provider uses a conversion code for National Award to National Diploma in Sector Subject Area 3.1 with Programme Weighting Factor E. All these

BTEC National aims are at level 3. The code the provider would use in the ILR to generate the correct amount of funding and take account of the learner's previous work would be **ZN33031E**.

6.3 Edexcel Professional Development Qualification Units

These codes are not available for funded provision for new starters in 2008/09, these codes remain available on the LAD for non-funded and ASL-funded provision only.

The codes for units of Edexcel Professional Development Qualifications include the number of units (1 to 6), the Sector Subject Area and the Programme Weighting Factor. Programme Weighting Factor F (basic skills) cannot be claimed for this provision. They are formatted as shown in this example:

ZEDP101A Professional Development Qualification: 1 unit, Programme Weighting Factor A, Sector Subject Area 1

ZEDP indicates that the code is for Edexcel Professional Development Qualifications
1 indicates that the qualification is 1 unit
01 indicates that the qualification is in Sector Subject Area 1
A indicates that the Programme Weighting Factor is A

6.4 OCN Credit Achievement Codes

These codes are not available for funded provision for new starters in 2008/09, these codes remain available on the LAD for non-funded and ASL-funded provision only.

OCN credit achievement codes include the level (Entry, 1, 2, 3 and 4), the Sector Subject Area and the Programme Weighting Factor. These codes can only be used for courses that are accredited by OCNs licensed by NOCN. They are formatted as shown in the example:

ZCACE01A Credit Achievement Code (OCN) licensed by NOCN: Entry level, Sector Subject Area 1, Programme Weighting Factor A

ZCAC indicates that the code is an OCN credit achievement code licensed by NOCN
E indicates that the course is at entry level
01 indicates that the course is in Sector Subject Area 1
A indicates that the Programme Weighting Factor is A

OCN Skills for Life class codes are detailed in section 5.3

6.5 Units of non approved external qualifications

The codes for units of external qualifications which are not approved (other provision) remain available on the LAD for non-funded and ASL-funded provision only.

These codes include the level (Entry, 1, 2, 3 and Higher), the Sector Subject Area and the Programme Weighting Factor. They are formatted as shown in this example:

ZUNEE09A	Unitisation (external qualification not approved): entry level, Sector Subject Area 9, PW A

E	indicates that the unit is at entry level
09	indicates that the unit is from Sector Subject Area 9
A	indicates that the Programme Weighting Factor is A

6.6 Units of approved external qualifications (except skills for life)

The "ZUNA" codes are not available for new starters in 2008/09. They have been replaced by separate codes for approved National Qualifications Framework (NQF) and approved Qualifications and Credit Framework (QCF) qualifications. See sections 6.7, 6.8 and 6.9 for more information.

Note that these codes will be withdrawn totally (unavailable for all learners) in 2009/10.

6.7 Units of approved Skills for Life qualifications

These Skills for Life codes remain available for 2008/09 provision, but the other "ZUNA" codes are unavailable for new starters in 2008/09 and have been replaced by separate codes for approved National Qualifications Framework (NQF) and approved Qualifications and Credit Framework (QCF) qualifications. See sections 6.8 and 6.9 for more information.

Only approved Skills for Life qualifications are funded at Programme Weighting Factor F and the following codes should only be used to record units of approved Skills for Life qualifications (the Certificates in Adult Literacy, Certificate in Adult Numeracy and ESOL Skills for Life – where the awarding body separately certifies each unit).

Three new class codes have been added to the Learning Aim Database (LAD) for approved Skills for Life qualification units in Numeracy. These codes are available only for National Open College Network (NOCN) approved units of the Certificate in Adult Numeracy, as QCA has informed the LSC this is the only awarding body who has had units of the approved Certificate in Adult Numeracy separately accredited. They are all funded at programme weighting F.

6.8 Units of approved Qualifications and Credit Framework (QCF) qualifications

These codes (along with their NQF equivalents) replace the ZUNA codes (except for Skills for Life provision). The QCF codes may be funded for Adult Learner Responsive provision and 16-18 Learner Responsive provision. ~~The eligibility of units for learners aged 19+ is still under review and the LSC is awaiting final confirmation from DIUS.~~ For recording units in the Adult LR model, these codes are only available in 2008/09 for learners enrolled before 31 December 2008.

It should be noted that not all QCF units will be eligible for funding as unit funding has been restricted to DIUS-led trials in 2008/09. A list of eligible units has been published on the LAD. For learners starting aims on or after 1 January 2009, funding for units in the Adult LR model will be restricted to the units shown individually on the LAD as valid for Adult LR.

For more information about the funding of the unit specific codes in the Adult LR model please see the unit funding guidance at: <http://qfr.lsc.gov.uk/ukvgrp/support>. The eligibility for unit specific codes in the employer responsive model through the Train to Gain flexibilities can be found on: <http://www.lsc.gov.uk/providers/ttg/latest/>.

A	indicates that the Programme Weighting Factor is A

7 Other class codes

7.1 OCR Asset Languages assessment scheme

The Asset Languages assessment scheme is designed to provide voluntary accreditation options for language learners of all ages and abilities.

The qualifications are categorised by level, language and skill. The skills are Listening, Reading, Writing and Speaking. The levels are Breakthrough, Preliminary and Intermediate which are equal to the National Qualifications Framework (NQF) levels Entry, Level 1 and Level 2. Each level comprises three different grades - Breakthrough: Grades 1 to 3, Preliminary: Grades 4 to 6 and Intermediate: Grades 7 to 9. The aims can either be teacher assessed or externally assessed. Aims for level 3 (Grades 10 to 12) were added in 2006/07.

Externally Assessed Aims

For externally assessed aims the appropriate National Qualifications Framework (NQF) code should be used, these are available on the Learning Aim Database (LAD). An example of an externally assessed OCR accredited aim is shown below:

10054765 Certificate in French Listening (Intermediate) (Asset Language) (Pilot)

Teacher Assessed Aims

Class codes have been created on the LAD for the aims that are being teacher assessed.

The codes for the Asset Languages include the level (Entry, Level 1, Level 2 and Level 3) and skill (Listening, Reading, Writing and Speaking) and are formatted as shown in the example:

ZLLASELI Asset Languages, Teacher Assessment, Grades 1 to 3, Listening (piloted pre 2006/07)

ZLLAS Asset Languages, Teacher Assessment

E indicates that the code is Entry level

LI indicates that the code is for the Listening skill

Each code can be used for any of the languages offered and a single code can be used more than once for the same learner.

7.2 Generic Diploma Programme Aims

These codes are provided for use when a learner enrolls on a programme for one of the new 14-19 Diplomas, but does not know at the outset which Diploma Awarding Body will award the final Diploma qualification.

These codes should be recorded in the ILR for Programme Aims for the relevant learners, but must be replaced by the actual learning aim reference for the diploma qualification once this is known.

Code	Title
50027190	Generic Diploma Programme Aim for the Foundation Diploma in Construction and the Built Environment

7.3 Entry to Employment

The following codes are available for Entry to Employment (E2E) provision:

Code	Title
XE2E0001	Entry to Employment

Code	Title
XE2E0002	Aim studied within an E2E programme, approved by the LSC as equivalent to an Entry level qualification for E2E bonus purposes
XE2E0003	Aim studied within an E2E programme, approved by the LSC as equivalent to a Level 1 qualification for E2E bonus purposes

The XE2E0002 and XE2E0003 codes should be used where a learner is studying, as part of an E2E programme, learning aims that are not included separately on the LAD.

So, for instance, a learner studying a Key Skills qualification as part of their E2E programme would use the appropriate code for that Key Skills qualification. (For instance 10002613 is the code of the AQA Level 1 Key Skills Application of Number qualification.)

7.4 ESF Co-financed

ESF provision should be coded using a specific learning aim code from the LAD if an accredited qualification is being delivered. Use a code from section 2, LSC Funded Provision, if there is a relevant code available. The following codes are available, but should only be used when a more specific code is not available.

Code	Title

Two new class codes have been added for specific ESF co-financed provision:

ZESF0002	ESF Cofinanced - Production of Individual Learner Action Plan

7.5 Non-externally certificated Learner Responsive other provision (not Skills for Life)

These codes include provision which is both internally-certificated and non-certificated. These codes include the level (Entry, 1, 2 and 3), Sector Subject Area and Programme Weighting Factor (A to E).

A	indicates that the Programme Weighting Factor is A

7.6 Non-externally certificated, non-Learner Responsive, other provision (not Skills for Life) to be used for ASL or ESF funded learning which does not lead to a certificated qualification

These codes use the tier 2 Sector Subject Area categories and include provision for both internally-certificated provision and non-certificated provision. These codes can be used for ASL and ESF provision.

7.7 Skills for Jobs (S4J) Class Codes

Two class codes have been added to the LAD for Skills for Jobs (S4J). Skills for Jobs is an over-arching description, predominately used for internal LSC purposes, that is used to describe the LSC's offer of a range of new and existing pre level 2 provision and activity which promotes sustained employment outcomes and progression into further learning for low skilled adults (19+) who do not have a job and want to work. The following codes were available to use in the ILR from 2007/08:

The codes are:

Code	Title
ZS4J0001	A tailored, activity plan for individual support for low skilled adults yet to achieve Level 2 (aged 19+) who are not working and who would benefit from skills interventions, with pre Level 2 training and support to help them to secure sustained employment
ZS4J0002	Formal internal employer training which is designed to improve the individual's ability to perform the employment and may include training on Health and Safety, quality, process and procedures, environmental awareness.

7.8 Framework Completion Class Codes

The Framework Completion Class codes (for example CFRCOMCA) are not available for any learners in 2008/09. They have been replaced by the use of the Programme Aim Data Set within the ILR to represent a programme.

7.9 Programme Aim Class Code

The code ZPROG001 is used in the ILR Learning aim reference field, field A09, for programme aims. The exception to this is for 14-19 Diplomas where either the actual reference of a Diploma qualification should be used, or one of the generic Diploma programme aims described in section 7.2 may be used if the Diploma is not known at the outset of the learner's programme.

7.10 Tailored pre-employment training

The code ZSPE0001 is used in the ILR learning aim reference field, field A09, for tailored pre-employment training. Field A10 LSC funding stream should be coded 70 – LSC ESF co-financed, or 80 – other LSC funding stream, and any funding will be calculated via CMA.

9 Background on the Sector and Subject Areas

The sector subject areas (also called sector subject categories) have been introduced as a single framework of sectors and subjects to categorise qualifications. The remit to develop this framework was received from ministers by the regulatory authorities (QCA, ACCAC and CCEA).

This common framework will be used across relevant education agencies and bodies in England, Wales and Northern Ireland, and the LSC is committed to using this categorisation for planning and reporting for the 2006/07 year onwards.
