Notes:

Success rate calculated at the end of 2008/09

Based on the year in which learners are expected to achieve

Quarters are purely for illustrative purposes only

Withdrawals and achievements only count if it is in the same year as the expected end date

Learning aims 1 - 4 all relate to 07/08 success rates

Learning aims 9 and 10 will relate to the 09/10 success rates

Learning aims 5 and 6 count as success despite their achievement being after the expected end date (as it's in the same academic year)

Learning aim 7 counts as success as the achievement was successful and earlier than the expected end date

Learning aim 8 was a non-achiever (withdrew)
